Network Security (Basics)

Web Security (Basics)z

Kali Linux | Nmap | Burp Suite |

Aircrack-ng | Wireshark

Education

Government Akhtar Nawaz Khan Shaheed Degree College, KTS, Haripur
Expected Graduation: 2027
Relevant: Computer fundamentals, networking, Linux

Languange

Urdu English

Profile

Aspiring Ethical Hacker with a strong attacker mindset and hands-on experience in offensive security labs. Ranked in the Top 2% globally on TryHackMe. Skilled in web application reconnaissance, network scanning, and WiFi security basics. Passionate about automating security checks and making penetration testing accessible for beginners. Seeking an Ethical Hacking Internship to apply and grow practical skills in real-world environments.

Experience

Academic & Lab Experience

- **BSCS Program** – 6th Semester (2023 - Present)- Completed coursework in Information Security, Computer Networks, and Operating Systems- Applied **Linux command-line skills** for system administration and security tasks- Developed programming fundamentals in Python for automation scripts- Collaborated on group projects emphasizing secure coding practices.

Cybersecurity Training & Labs

- **Challenges:**- Exposure to real-world exploitation techniques and CTF-style problems
- **Projects:** WebShield – Website Security Checker (Live: webshield.tech)- Developed a web-based security tool integrating Kali Linux utilities (Nmap, Nikto, WhatWeb)- Automated scanning for common web vulnerabilities including open ports and exposed services- Built with beginner-friendly interface to lower entry barrier for security testing-
- **Applied knowledge** from BSCS networking and security coursesTeam & Academic Collaboration.
- **Participated in university CTF** competitions and group problem-solving sessions.
